MultiFish

Welcome to the World of Carp Zoom!

2016 arrives with a new season and new challenges.

Thanks to the efforts of our experts we trust in that we can offer the better and better solutions and answers year by year to you, being our partner and friend.

We do hope that you will agree with us and we can contribute to your success in business.

We, a group of committed experts in angling at CarpZoom, have worked a lot to develop our supply and service and to

introduce new products in order to meet these challenges. However, our policy has not changed: we are committed to meet the requirements of the wide range of fishermen, including hobby anglers willing to have some fun at the lake, to the devoted fanatics chasing the big fish. We always work closely with our esteemed partners (being also our friends) and grow our business together. We pride ourselves on flexibility to help our partners to share the success of Carp Zoom.

The satisfaction of our customers is based on several topics we lay a big emphasis on:

- » Selection of high quality ingredients by our own experts with many years of experience.
- » Strict quality controls of the whole process from the raw materials to the ready products.
- » Continuous testing under various conditions by our experts and field testers from the first prototype until

the product is available in the market.

- » The most up-to-date production technology to ensure the constant high quality.
- » Top quality packaging materials to ensure the freshness throughout the shelf life.
- » Flexible services offered by our well trained staff.

Should you have any questions please do not hesitate to contact us.

SUITABLE
FOR BOILIE MAKING

Special Additives

Additives for enriching any groundbait or boilies. Give it a try and experience how effective your regular bait can be.

Betaïne: Derivative of glicin (amino-acid), improves the feeding of fish.

Black Halibut Crush: Crushed black halibut pellets.

Red Halibut Crush: Crushed red halibut pellets.

Spirulina Algae: Rich in proteins, vitamins and minerals. No fish can resist it.

Groundbait Glue: Adjust the stickiness of your groundbait as you wish.

Maggot Glue: The perfect solution if you wish to use live maggots to your groundbait. If you want loose but long lasting gluing, mix the groundbait glue to the dry groundbait. When mixing the glue to the wettened groundbait, the mix will hold stronger but the dissolving time will be shorter.

Robin Red® Mix: The original Haith's Robin Red® to help you in catching the desired fish. Suitable not only for groundbaits but for seeds or spod mix, too.

Robin Red® Mix	CZ 5937	5999558735937

TTX

Roasted and pressed corn. First mix it with water then add it to the groundbait. Carps and big breams will love it.

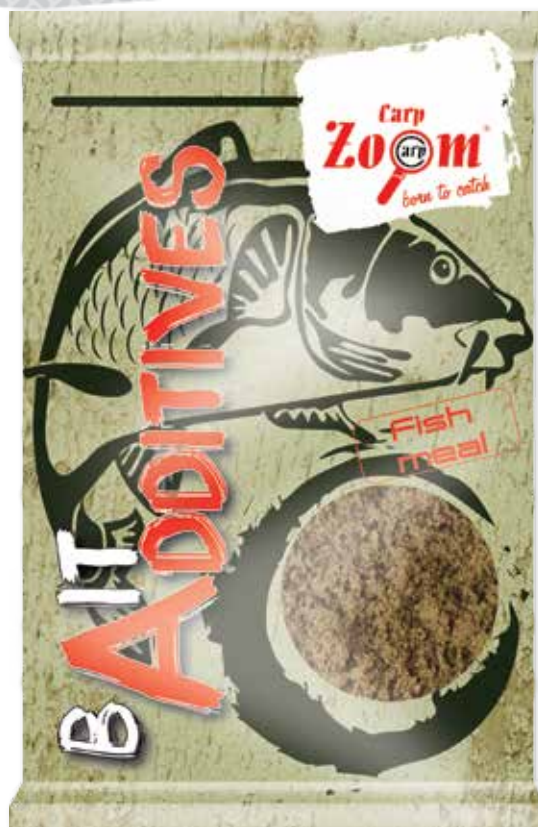

Crumbs

A mixture of yellow and red bread crumbs to increase the big fish attracting effect of the groundbait.

PV1

Special and attractive groundbait additive for adjusting the stickiness of the groundbait.

Fish Meal	CZ 2218	5999095322218

TTX	CZ 8122	5999550928122

Hemp Meal

Oily meal that makes a perfect addition to any mixes like method, particle or spod. A perfect additive to groundbaits or homemade boilies. It really lures fish into the feeding area.

Fish Meal

This fine, floury, aromatic meal is a highly attractive product, and is a essential ingredient for any bait. Excellent for use in groundbaits, boilies, pastes or any other homemade or home mixed baits. It is a many-sided product that simply works on all waters.

Carp Fiesta Groundbaits

Highly effective groundbait mixes developed on the knowledge of several years of testing. Especially made for several types of carp fishing.

Vanilla: traditional and proven flavour recommended for the whole season from early spring to late autumn.

Fish Mix: due to its special aroma made from different fish flavours it can be the best solution in warming waters.

Spice Mix: using selected spices this groundbait has been specially formulated to give out maximum food signals.

Feeder Carp: suitable also for feeder fishing.

XXL Carp Red: strawberry flavoured special mix targeting big carps.

XXL Carp Yellow: honey flavoured special mix targeting big carps.

Carp Mix: more attractive than ever, no carp can resist it.

Black Carp - Cold Water: the best solution to attract carps when the water is cold thanks to its unique ingredients and flavouring.

Carp Special: the solution when other groundbaits have failed.

Strawberry: when tradition and modern technology meet.

Honey: proven flavour and mixture of quality ingredients.

Fish Magnet

Fish Magnet is the result of a revolutionary new concept of fishing baits. It is more than just a simple groundbait, several field tests under various conditions proved that even smaller quantity attracts the fish better than any other groundbait.

Fish Magnet is perfect to use in commercial lakes or natural waters for many kind of fish, especially if you need to attract them with only a small quantity of bait.

Made from high quality raw materials with the ingredients of the proven Carp Zoom pellets.

Groundbait: To use Fish Magnet as groundbait put the required quantity of Fish Magnet into a bucket using a measuring cup. Then add 40% water and mix them together – ready!

Be aware, Fish Magnet does not absorb water like regular groundbaits. If you add too much water, just put some more Fish Magnet to the mix.

Additive: You can add Fish Magnet to any groundbait to boost up the attraction effect. First mix the groundbait and the Fish Magnet then add the water to the mix.

Hook Bait: Make your own and attractive hook paste by using Fish Magnet. First mix it with any special ingredient you like: aroma powder or liquid, particles and

seeds, etc. Then mix them well and if the paste is too dry, slowly add some water to get the right consistency. You can use it to boost up any other hook paste, too.

Fish Magnet is sticky but dissolves quickly in water. In case you need a slower dissolving bait, add some CarpZoom Groundbait Glue to it.

Cream	CZ 5906	5999558735906

Carp Fanatic Groundbaits

Innovative conception of groundbaits: unique combinations of highly efficient recipes, quality raw materials and special floating and sinking pellets. They are extremely attractive baits for carps and other big fishes in lakes. The floating pellets start to lift up just after hitting the bed in the water, then sink back to the ground. This up and down effect is irresistible for the fish.

ETANG

Ideal for still waters when the water is clean and cold. Target fish: bream, common roach or any other small fish. Small grained groundbait with floating particles. 1kg groundbait requires 0,6-0,7 liter water.

BIG BREAM

Perfect for match, feeder or pole fishing. Target fish: bigger sized common roach and bream. Intense sweet and spicy flavour features this groundbait. 1kg groundbait requires 0,25-0,35 liter water.

BIG ROACH

Its roasted seed flavour is very characteristic. Target fish: bigger sized common roach. Intense sweet and spicy flavour features this groundbait. 1kg groundbait requires 0,55-0,65 liter water.

SUPER FEEDER

Fast dissolving groundbait for feeder fishing. 1kg groundbait requires 0,25-0,35 liter water.

SUPER CARP

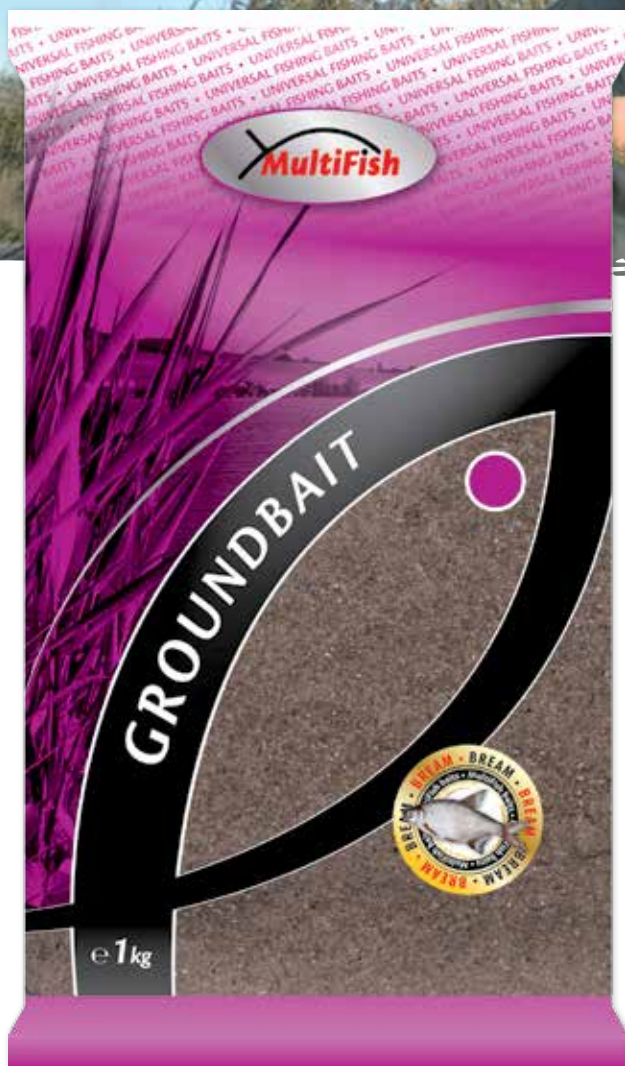

Heavy groundbait with citrous like flavour and crumbs. Target fish: carp. Recommended to mix it a day before use. 1kg groundbait requires 0,55-0,65 liter water.

SUPER FISH

Homogeneous and heavy groundbait with fishy flavour and ground pellets for feeder fishing. 1kg groundbait requires 0,55-0,65 liter water.

We recommend to add water to the groundbaits in two steps then to sift it at least once.

Amino Dip

Well known and proven dip with high amino acid content to boost your hookbait.

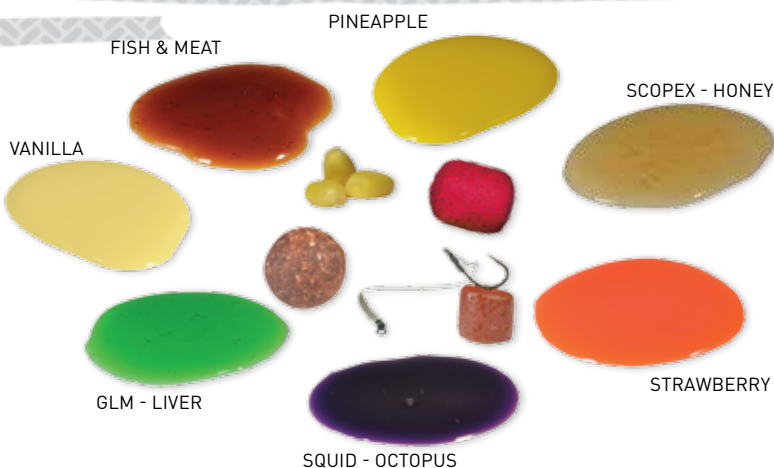

Plasma Dip

The Plasma Dip stays on the bait much longer than regular dips thanks to the gel-like, thick consistency. Also, there is no need for long soaking periods, just place the hooked bait in the dip, wait a few seconds and it is ready to catch the fish for you.

The long cast version of the Fanatic Plus carp rods with 50mm butt guides. With a big pit reel the Fanatic Plus 50 enables you to cast to the horizon, while still having enjoyable playing qualities.

The rod and reel ranges of our brand is the answer to the request of our customers.

We trust that keeping our focus on the value-price ratio we can offer products to our customers that will succeed on the markets. We tried to set up a product range containing rods and reels from high quality ones to the affordable solutions so everyone can find the suitable products for his own market.

We believe that our efforts developing these products will be satisfactory and we found the right way helping our partners to reach new markets.

CamouPro Carp

The CamouPro range unites quality and style. The slim design with the camou finish wraps a powerful and responsive blank. CamouPro is your choice if you are looking for quality without compromise.

- slim and lightweight carbon fibre blank with camou finish
- double leg SIC guides
- strong and durable reel seat
- non-skidding butt grip
- metal butt cap

PondZoom

Pond Fish Feeds	166-167
-----------------------	---------

PondZoom fish feeds are the result of several years of research and production experience. During the development the focus was on the well being of your pond fish by using the knowledge of the aquaculture industry about the raw materials, formulas and observations of the usage of fish feeds.

Based on this knowledge we created the recipes of the PondZoom fish feeds adjusting them to the special needs of the pond fish species and their circumstances.

The result of our work is the range of the PondZoom food+ fish feeds offering a well balanced diet for your pond fish.

The unique composition supports the long term health and vitality of your fish. Thanks to the well balanced nutriments the PondZoom fish feeds minimize the overload of the pond water.

Carp Zoom - baits	001-054.
Carp Zoom - rods & reels	055-078.
Carp Zoom - accessories	079-154.
Carp Zoom - outwear	155-161.
LaSirene X21, Dinsmores.....	162-163.
» PondZoom	164-167.
